

## HSF 8SV Tip On/Affixing Friction Feeder

A high speed servo friction feeder manufactured for the high speed affixing of small items such as gift cards, leaflets, pharmaceutical instructions, magnets and much more.

The HSF 8 SV can be integrated to many automated systems. Some of these include:

- Book Binding Lines
- Folding machines
- Vacuum conveyors

### Applications:

- Gift Cards
- Credit Cards
- Coupons
- Leaflets
- Magnets
- CD's/DVD's
- Slip Sheets
- Pharmaceutical Inserts
- Folded Maps

### Options:

- Ink Jet Printing
- Barcode Scanning
- Camera System
- Encoder
- Velocity/target tracking
- PLC/PC interface
- Wider models
- Customized

### Specifications:

#### Material Sizes

Minimum 2"W x 2"L  
(50mm x 50mm)

\*Optional 1"x3" (25mm X  
25mm)

Maximum 8"W x 12"L  
(203mm X 305mm)

\*Wider and longer specs available

#### Material Thicknesses

.003" up to .031"

.08mm up to 13mm

#### Dispensing Speed

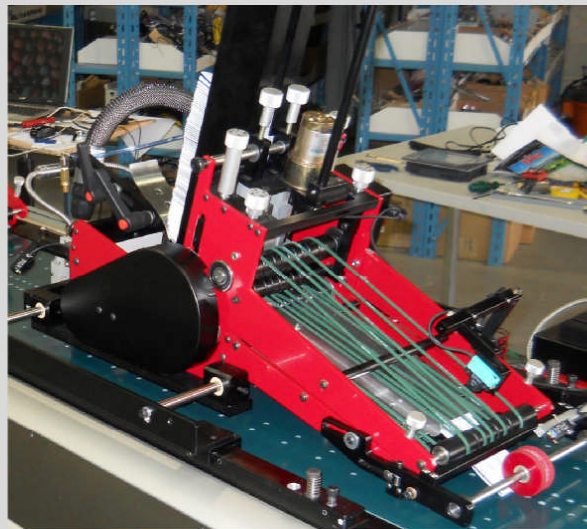

0 to 8,500 IPM (variable)

#### Power Requirements

110V/220V 5amp

### Features

- Low profile for accurate placement
- Side guides for straight placement
- All anodized aluminum framework
- Patent pending gear-driven singulating mechanism
- Servo motor and drive
- All permanently lubricated ball bearings
- FDA design features are standard
- Simple adjustments minimize setup and change over time
- Rugged durability for continuous use and long life
